

GI-TEC

SUMMER CAMP

June 9th-12th • 9am-12pm

Open to current 6th-8th grade students in Gratiot or Isabella County

AUTOMOTIVE

Close your eyes, let the smell of grease, oil and rubber fill the room. Now open your eyes...are you signing up for our Automotive program yet? We'll check fluid levels, and change fuses and tires during our week in the garage. Learn how you can start a career in one of the most in-demand jobs in Central Michigan.

CULINARY

Do you love to cook or dream of owning your own restaurant someday? Join us in Culinary Arts and start by creating the perfect sauce for your very own Italian Bistro! You'll learn menu planning, food safety, teamwork, leadership, and how to bring delicious dishes to life. Get ready to stir up some flavor—and maybe even a future in the food biz!

DIGITAL MEDIA

Step into the spotlight and join us in Digital Media! You'll become anchors, reporters, editors, and camera operators as you create your own newscast covering the GI-TEC Summer Camp. Using video editing, graphic design software, and real broadcasting equipment, you'll bring your stories to life. Bring your creativity and let's make some headlines together!

EDUCATION CAREERS

Do you enjoy helping children learn new skills? Have you ever thought about being a teacher, counselor, childcare provider, or a youth group leader? Join us in Educational Careers as we learn how to work with children through activities, projects and games. This opportunity will help you decide if you have a desire to positively impact the lives of youth.

HEALTH SCIENCE CAREERS

Are you ready for the exciting world of healthcare? Explore the human body through interactive anatomy and physiology activities, learning how body systems function and work together. Learn basic hands-on clinical skills such as measuring vitals, splinting, wound care and more. Whether aspiring to be doctors, nurses, or simply curious about how the body works, this course offers a dynamic and inspiring introduction to the healthcare field.

MECHANICAL DRAFTING + MACHINE TRADES

Calling all creative minds! Learn how to design and 3D print your very own pinewood derby race car using cool 3D software. We'll walk you through the whole process—from creating custom designs to printing the chassis and putting it all together with wheels and axles. We'll integrate the CNC machining process along the way. Come give it a try and bring your ideas to life!

MARKETING

Do you like high energy people, and making an impact? How about sporting events, concerts, and making yourself known? Come join us in Marketing. Marketing is fast paced and packed with opportunities to make decisions to impact businesses. It taps into your inner creativity, inspiration, and communication skills. You can help a business be successful, maintain customers, and make sales. Marketing is a powerful career.

INTERIOR DESIGN

Do you have an eye for style and love to decorate? Join us in Interior Design and design a custom lamp for your dream bedroom! You'll explore fun design concepts and learn how color, shape, and space all come together to create the perfect look. Let your creativity shine!

GRAPHIC DESIGN

Turn the color wheel upside down. Take a journey through design in this hands on Graphic Design program. Use professional software programs like Illustrator to bring your drawings to life as thermal vinyl bags and use other industry tools to explore Lego photography, and so much more

CYBERSECURITY

Are you ready for an exciting summer adventure? Join us in Cybersecurity, where you'll learn how to protect computers and data like a real cyber detective! You'll also get hands-on experience programming drones and exploring cool computer applications. Don't miss out on the fun—discover the tech skills of the future and make new friends along the way!
